RE: Project classes

Dear Parents, dear students,

Project classes provide students with the opportunity to try new activities, acquire new knowledge and perfect already existing abilities. Our program provides opportunities for our students to pursue recreational activities, participate in their favorite sports, or take part in freely chosen academic activities – learning with joy! Last year lots of students of the upper classes joined the project classes. We extended this offer, providing an inspirational and educational environment: take a look at the programme together with your child – you will find highly interesting possibilities to discover and further develop their passions and interests.

Beside our International School project class offer, students from Year 5 up can choose projects at the CJD Grammar School (Wilhelm-Meyer-Gymnasium, Georg-Westermann-Allee 76, 38104 Braunschweig). The courses will be held in German. In case students choose a course of the partner school, you as parents are asked to pick-up your child from there after the course in time or allow him/her to leave for home on their own. Students choosing a project at the CJD Grammar School will be accompanied the first time and should be allowed to walk on their own, afterwards. It is a short and safe way – they don't need to cross a street. Hence, you as parents should decide whether your child is ready to do so or not and you will be asked to sign an agreement (online available).

All Reception Class students will join the project “Spielerisch Deutsch lernen” once a week. In addition only a few projects are offered to RC children – the RC team is always happy to offer lots of activities in the afternoon and we feel that settling in to school life and team-building is really important in this age.

If there are more registrations than seats available the participants will be chosen by random selection.

Registration:

- Return the filled-in registration form till 29th August, latest.
- The participant lists will be published on 4th September
- The expenses increased steadily, in recent years. Therefore, we have to raise the parental contribution. Further information will be sent to you ASAP.
- Start of projects: 9th September, 2019.

Kind regards,
Elke Brückner
